

## Zelogtek Core Capabilities:

### **Military Packaging Service—**

Simply hand us your products and we will pack it in accordance to military packaging requirements. Let us worry about getting your products to the military bases.

### **Barcoding, RFID and Logistics—**

We provide labeling and tracking services including MIL-STD-129P UID, 2D Barcode, and RFID labeling services.

### **Value Added Work—**

Do you have a task your internal resources are not equipped for? We can be your source for rust removal, parts cleaning, sub-assembly, repacking, kitting, etc.

### **Web-Store Fulfillment—**

Let us handle your everyday shipping, ordering processing and inventory while you concentrate on your business.

### **Packaging and Corrosion Solutions—**

We are experts in corrosion management. We can remedy existing rust problems and apply corrosion inhibitors and packaging. We buy in bulk and pass on the savings to you!

### TESTIMONIALS

“Zelogtek has been **our tour guide through the world of military packaging**. Without them I fear that we would still be lost in the jungle of military packaging specs. The Zelogtek staff is extremely helpful, friendly, and efficient. I can’t think of anyone better to assist us with all of our military packaging needs.”  
-AmCraft Manufacturing

“Zelogtek is a **vital packaging partner** for Syenatec. They help with confusing requirements, WAWF and drawings. I am confident that when any questions or problems arise, **Zelogtek can handle it**. If you want to streamline shipping and cut down on packaging costs, go to Zelogtek.”  
-Syenatec, LLC

“Zelogtek has **streamlined our military business**. They handle everything from packaging and shipping to WAWF processing. In our business attention to detail is vital, and Zelogtek excels in this area. Their prices are reasonable, and the time we save makes them a real bargain.”  
-Remington Express Enterprises, Inc.
